# What is Metatron?

Metatron (from Greek Meta+Tron meaning Beyond+Matrix.).

Metatron is **an angel in Judaism**, some branches of Christianity and Islamic tradition Witchcraft. However, there are no references to him in the Jewish Tanakh (Old Testament), the Christian Scriptures (New Testament) or any Islamic source.

There is no consensus as to his genesis or the role that he plays in the hierarchy of Heaven and Hell. A mysterious figure, Metatron is identified with the term, "lesser YHVH" which is the Lesser Tetragrammaton - in a Talmudic version read by the Karaite scholar Kirkisani.

The word 'Metatron' is numerically equivalent to Shaddai according to Hebrew gematria, therefore he is said to have a "Name like his Master".

The Talmud records an incident with Elisha ben Abuya, also called Aher ("another"), who is said to have entered Paradise and saw Metatron sitting down (an action in heaven that is permissible only to God Himself).

Elisha ben Abuya therefore looked to Metatron as a Deity and is reported to have said, *"There are indeed two powers in heaven!"*

The rabbis explain that Metatron was allowed to sit because of his function as the Heavenly Scribe, writing down the deeds of Israel, much as Thoth was the Egyptian scribe.

According to one school of thought Enoch was taken by God and transformed into Metatron, explaining the mysterious passage ...

**Genesis 5:24** *"Enoch walked with God; then he was no more, because God took him away"*

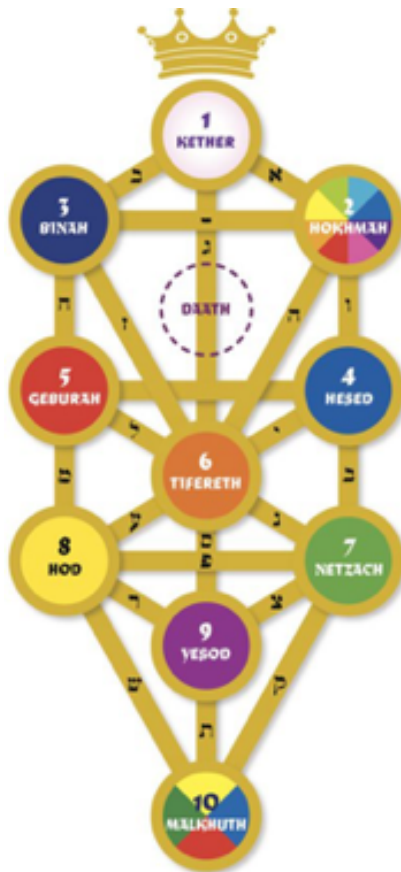

However, this viewpoint is not shared by many Talmudic authorities.

There may be two Metatrons, one spelled with six letters and one spelled with seven. The former may be the transformed Enoch, while the latter is the Primordial Metatron.

The Zohar calls Metatron "the Youth", identifies him as the angel that led the people of Israel through the wilderness after their exodus from Egypt and describes him as a heavenly priest.

Metatron is also mentioned in the Pseudepigrapha, most prominently in the Hebrew **Book of Enoch** (also called Third Enoch), in which his grand title, "the lesser YHVH" resurfaces.

According to Johann Eisenmenger, Metatron transmits the daily orders of God to the angels Gabriel and Samael. Metatron is often identified as being the twin brother to Sandalphon, who is said to have been the prophet Elijah.

## Metatron's Cube

## Metatron's Cube with Flower of Life

The Flower of Life has thirteen circles. ( $13=4=\text{time}$ ) If each circle's center is considered a "node" and each node is connected to each other node with a single line, a total of seventy-eight lines are created.

Within this cube, many other shapes can be found, including two-dimensionally flattened versions of the five platonic solids.

In early kabbalist scriptures, Metatron supposedly forms the cube from his soul.

This Cube can later be seen in Christian art, where it appears on his chest or floating behind him.

Metatron's cube is also considered a holy glyph and was often drawn around an object or person to ward off demons and satanic powers.

This idea is also present in **alchemy**, in which the cube was favored as a **containment circle or creation circle**.

The simplest means of constructing Metatron's Cube is to begin with a cube flattened along a diagonal that passes through its center, such that it becomes a 2D figure, equivalent to a regular hexagon divided via its own diagonals into six equilateral triangles.

The vertices of this 2D figure are then connected with additional lines. Several steps later, the full Metatron's Cube figure is formed.

**Metaphysics:** One needs to understand the metaphoric content of this geometric design to understand Metatron and the electromagnetic nature of the creation of our reality.

Metatron's Latin name is 'Metator' - A guide or measurer As in 'Creational Geometry' - or 'Metaphor'.

## Ancient Egypt god Toth

Some say he is an Archangel as in 'Arcs or Angles of Geometry'.

This was also attributed to Thoth.

**The Metatron is a reference to the highest archangel of the Kabbalah at Kether or the crown.**

Metatron is also sometimes equated with Thoth or Hermes, author of the **Emerald Tablets of Thoth**.

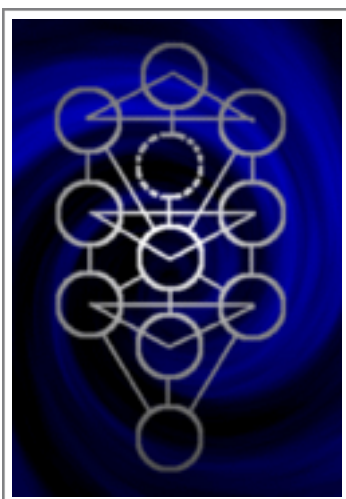

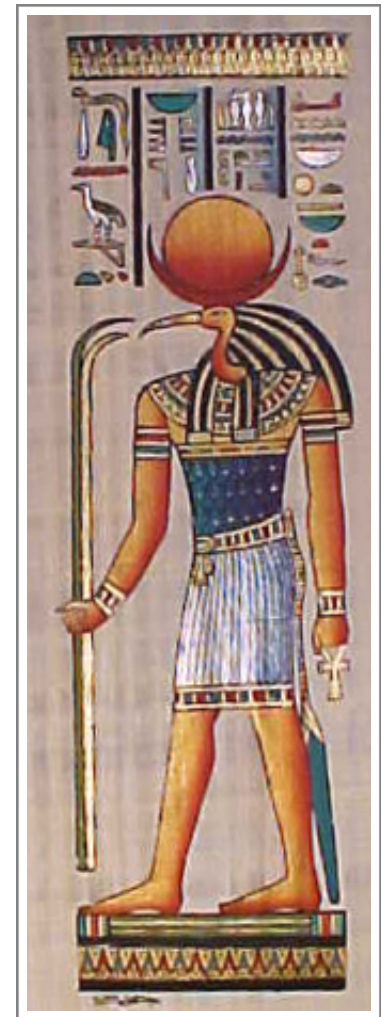

Below is the merge of polarities at Zero Point.

More properly, it should be associated with the supreme Egyptian god Ptah, also known as **the Opener**.

The wheel you refer to combines the symbology of **Kabbalah with the Tarot cards and the 22 paths in the Tree of Life**.

The image is of an 8-spoked wheel with the secret vowels of the Tetragrammaton (name of god) and the letters ROTA, which means Wheel – however, if you transpose the letters it spells "TARO".

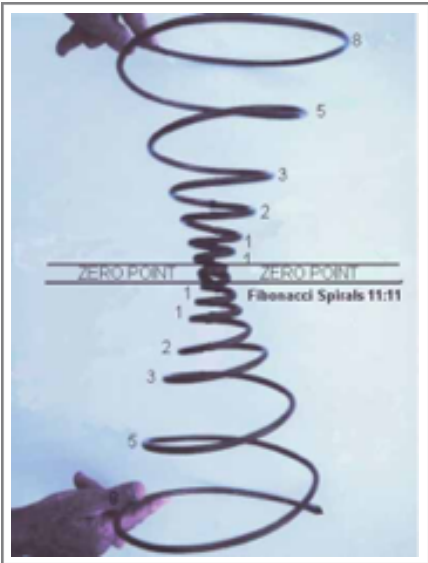

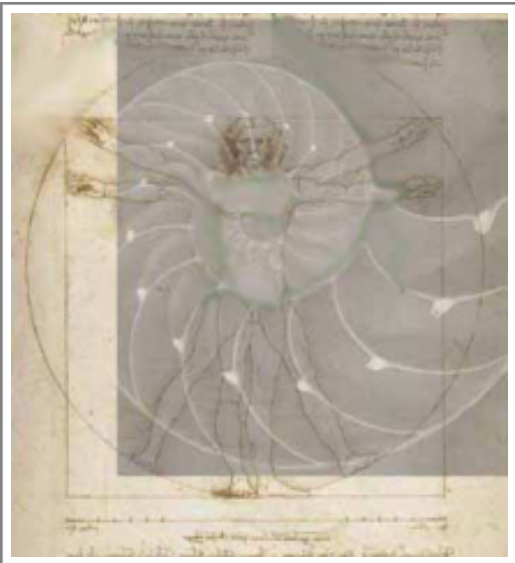

There are other esoteric symbols relating to the elements and processes involved.

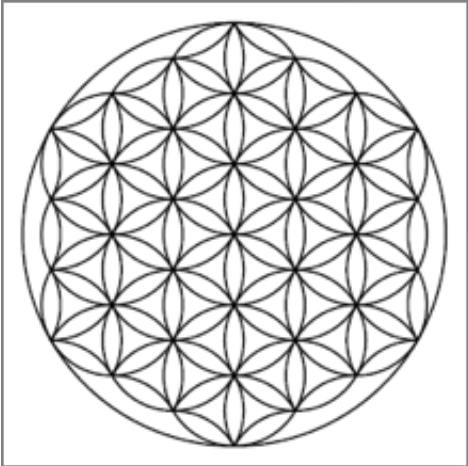

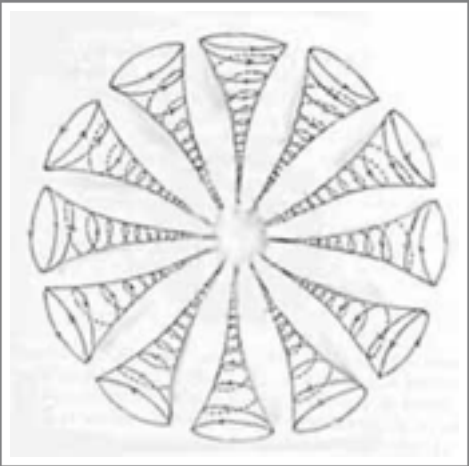

You should be able to find this image in books or websites dealing with the Tarot.

The connections between **Alchemy** and the Kabbalah are among the deepest mysteries.

## Conclusion

After doing a lot of research and consulting Biblical scholars and intercessors, we have heard many different opinions on this study; but the scales are weighing that there is not enough Biblical Scriptural backing Metatron and we need to make our make our final verdict with what the Word of GOD is saying.

Let's take another look again at the following to consider:

### Is Metatron in the Bible?

Metatron is not a figure of the Hebrew Bible, but his name appears briefly in several passages of the Talmud.

- ◆ Legends are predominantly found in mystical Kabbalistic texts.
- ◆ He is variously identified as the Prince (or Angel) of the Presence, as Michael the archangel, or as Enoch after his bodily ascent into heaven.

### Is Metatron a fallen angel?

The name Metatron is not mentioned in the Torah and how the name originated is a matter of debate.

- ◆ In Islamic tradition, he is also known as Miṭaṭrūsh, the angel of the veil.
- ◆ In folkloristic tradition, he is the highest of the angels and serves as the celestial scribe or "recording angel"

### What is Metatron Cube?

Metatron's Cube Meaning "**Sacred Geometry**" ... Metatron's Cube includes all 5 Platonic Solids hidden inside, symbolizing the underlying geometric patterns found throughout our universe.

It's named after Archangel Metatron, who watches over the flow of energy in creation and provides a connection to the divine.

Metatron is the name of an angelic being described in the Babylonian Talmud, Kirkisani and other mystical writings and in the Christian apocryphal books of **Enoch Book 3**.

According to these writings, after God took Enoch to Heaven (**Genesis 5:24**), he was transformed into the angel Metatron. His *"flesh was turned to flame, his veins to fire ... his eyeballs to flaming torches"* and he was *"placed on a throne next to the Throne of glory."*

According to Rabbinic tradition, he is the highest angel and the celestial scribe. There is no mention of Metatron, or any evidence for his existence, in the Bible.

The mystical writings that mention Metatron also say he is second only to God in terms of power and wisdom, glory and strength and that the other angels all obey him.

He is also supposed to be a kind of mediator between God and Israel and was possibly the angel who led Israel through the wilderness as a pillar of fire by night and a pillar of cloud by day.

This is a rather startling assertion, as the Bible clearly says "*the Lord went before them*" and the translation of the word "Lord" is YHVH, or Yahweh, which is GOD's Name and not the name of a holy angel (**Exodus 13:21-22**).

There is only one Mediator between GOD and men, the Man Y'shua HaMashiach (**1 Timothy 2:5**).

**Metatron is a deception ...he is a fallen angel of high rank who equates himself with Y'shua as Messiah.**

The Bible never mentions him and the descriptions of Metatron in the mystical writings **do not agree** with the Biblical descriptions of angels.

The Bible tells us not to pursue "*godless myths and old wives' tales*" but to instead train ourselves in Godliness (**1 Timothy 4:7 NIV**).

Furthermore, the worship of angels is associated with asceticism and false visions and is opposed to the worship of Y'shua our Messiah (**Colossians 2:18-19**).

We want to encourage you to do your own research on Metatron - may the Holy Spirit guide and lead you to walk along a path of absolute TRUTH!!

# Deception and lies of Kaballah

## How does Archangel Metatron represent Kether (the crown) in Kabbalah?

**“The Angel Metatron helps direct Tree of Life Energy of Spiritual Balance”**

by [Whitney Hopley](#)

On the Tree of Life in Kabbalah (also called "Qabala"), Archangel Metatron oversees the sephirot called "Kether" which means "the Crown." Since Kether is at the top of the tree and its energy flows down to all the other parts of it, Metatron is the angel who supervises the entire Tree of Life and its cosmic energies. Here's how Metatron represents the tree's crown throughout the universe:

### Linking Energies between Divine and Human

As the angel who oversees the Tree of Life's crown, Metatron (who tradition says was a human being (the Biblical prophet Enoch) before ascending to heaven) serves as the angelic link between God's energy and the spiritual energy of human beings who are seeking to grow closer to God, believers say.

*"In the Tree of Life in Kabbalah he stands at the top as the angel of Yahweh and is also credited with giving the wisdom of the Kabbalah to mankind; he is charged with the sustaining of mankind and seen as the link between the human and the divine,"* writes Julia Cresswell in her book **“The Watkins Dictionary of Angels: Over 2,000 Entries on Angels and Angelic Beings.”**

Metatron *"dwells in the energy closest to the Divine and helps create positive love vibrations to sustain the Universe, but he is also chiefly concerned with humanity and its connection that Divine force,"* writes Rose VanDen Eynden in her book *Metatron: Invoking the Angel of God's Presence.* *"Because of his close proximity to Creator and his intimate knowledge and love for humanity, Metatron is God's ultimate emissary."*

Maggy Whitehouse writes in her book *Kabbalah Made Easy* that Kether *"is primarily associated with Metatron, the only known being who is both human and angel. He was once Enoch, the first ascended man who became one with the Divine. Metatron is the access point between God and the rest of the creation and the great High Priest. Some people mistakenly refer to Metatron as their guardian or guide, but he is the ultimate guide for all humanity, not individuals."*

In their book *Tarot Talismans: Invoke the Angels of Tarot*, Chic Cicero and Sandra Tabatha Cicero write: *"Metatron is responsible for presenting God and human to each other. He is the link to the divine and is responsible for increasing the flow of light to the initiate."*

### Bring Spiritual Balance to Creation

Metatron helps all of creation maintain the proper balance of spiritual energy, say, believers, by sending energy down the Tree of Life all the way to Archangel Sandalphon, an angel who is often considered to be Metatron's spiritual brother.

Then the Shekinah (the female part of God) reflects that energy back up the tree again, so that spiritual energy is constantly flowing between God, angels and people.

Janet McClure writes in her book *Prelude to Ascension: Tools for Transformation*: *"If you look at the tree you will see Metatron at Kether at the top of the tree and Sandalphon at Malkuth at the bottom of the tree. These two work together frequently. Isn't it interesting that the top and the bottom of the tree are so closely connected? This is for balance and focus in the physical."*

**In Metatron:** Invoking the Angel of God's Presence, VanDen Eynden writes: *"Metatron is closely associated with God, becoming the lesser God through his connection with the Tetragrammaton. Thus, Metatron is the male aspect of God, with the female aspect being Shekinah. ... it becomes the quest of God's male aspect (Metatron) to reunite with God's female aspect (Shekinah) to bring balance to the universe. Only through this unification can peace be achieved in all realms."*

*"Inherent in Metatron's nature, then," she continues, "are his role in helping balance the cosmos and his dedication to helping humanity to achieve this on both a small scale (in daily life) as well as on a broader, more universal scale."*

## **Human Enlightenment in Proper Balance**

If people approach Metatron with reverence and humility, he will enlighten them with God's wisdom, believers say. But they add that people should beware of trying to use such wisdom for selfish purposes.

**"Metatron will lead us straight to God if we are capable of holding balanced contact with such power, or if we fail to do so, we shall 'fall' back to the bottom (of the Tree of Life) at Malkuth,"** writes William G. Gray in his book *The Ladder of Lights*. *"Everything depends on whether we attempt to confine Divinity within ourselves or extend ourselves into Divinity. Any mortal trying to hold Divine Power inside the limits of their own earthly personality will be disintegrated by it, as our mental hospitals and political parties can show. ... Those who seek the Divine in order to enlarge themselves earthwardly will assuredly be destroyed by the same law that explodes an over-pressurized container, or over-massed plutonium. After initial instability comes to a final explosion. ... The part cannot be greater than the whole and no mortal is bigger than God."*

McClure writes in *Prelude to Ascension* that Metatron distributes *"beautiful, pure direct light from the Source"* to human beings. *"He begins the distribution of the light to the various sub-departments of Kether and then down the tree toward Sandalphon."*

People may feel more comfortable asking an angel like Metatron for enlightenment rather than approaching God directly, writes McClure. *"Metatron can be utilized to tune you into the Source if you have some hesitation in approaching the Source directly. You will still get the essence of the purity of the Source but you won't be as overawed by his overpowering all-knowingness. It is his responsibility and his privilege to represent the Source."*

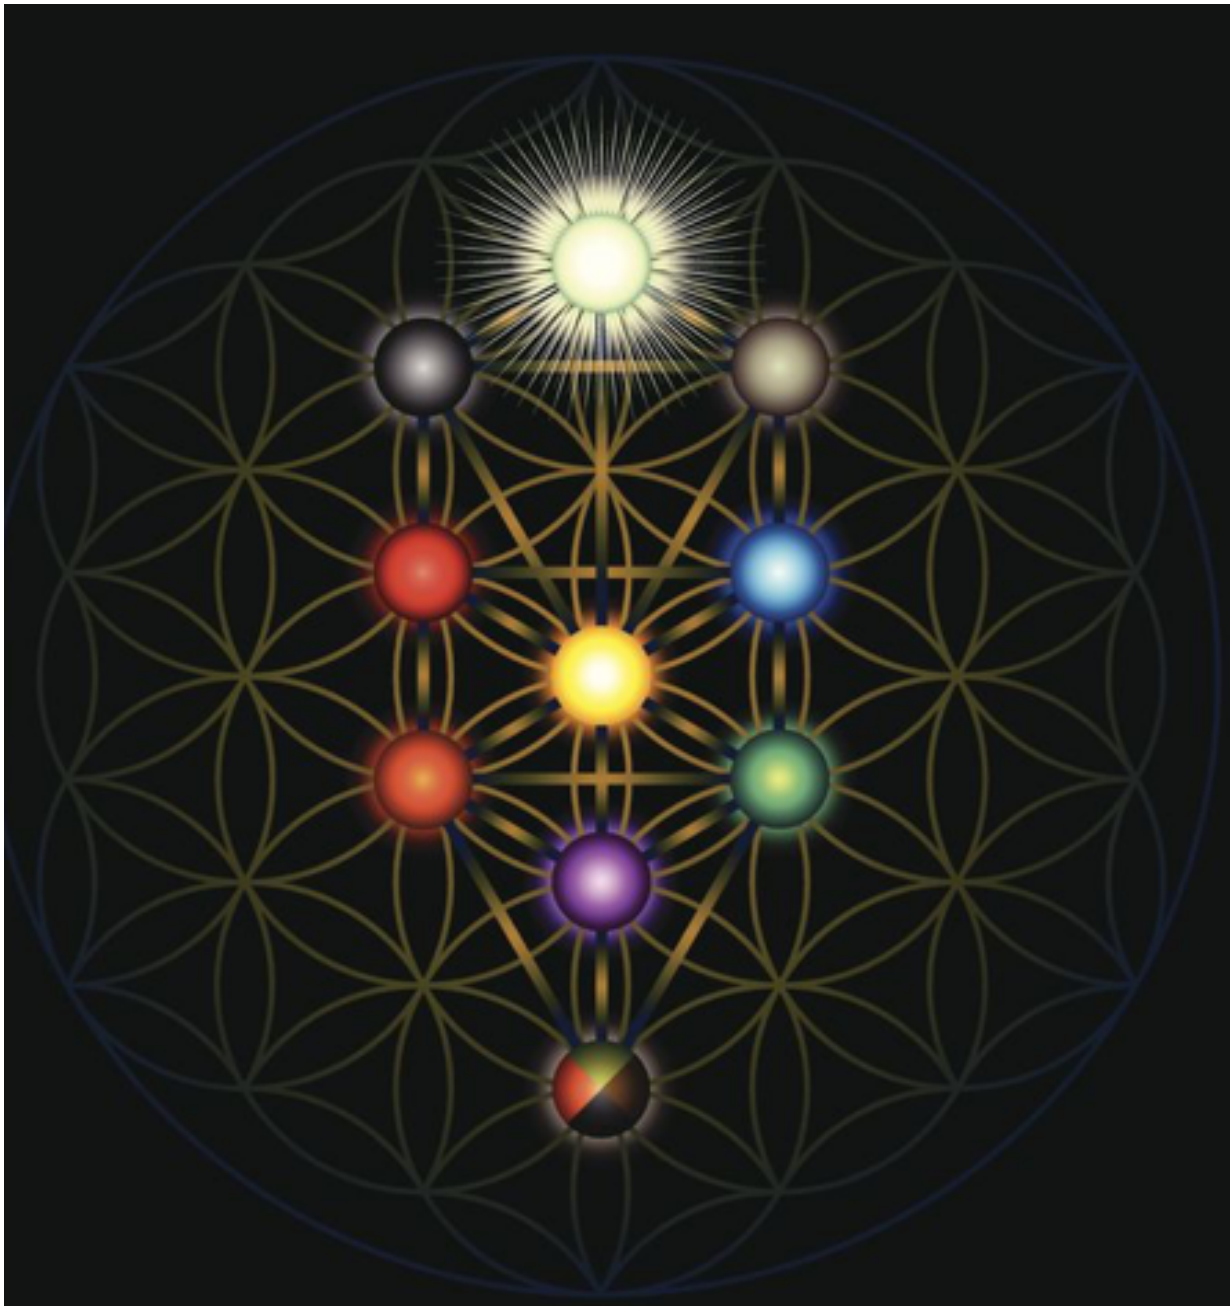

However, writes Gray in *The Ladder of Lights*, those who seek enlightenment through the Tree of Life must always keep in mind that their goal should be doing God's will rather than their own.

*"Our little earthly selves must open out into the I AM so that we become IT. Metatron knows the way of this and will teach us truly if we ask him. ... "This is why the prayer 'Thy will not mine be done' has such tremendous meaning. The will (or direction) of the true I AM should govern the 'Lesser YHWH' or Metatron in each of us so that both force-flows work together as one."*

## The Angels of the Kabbalah Tree of Life

<https://www.learnreligions.com/angels-kabbalah-tree-of-life-124294>

by [Whitney Hople](#)

The Tree of Life in mystical Judaism, called Kabbalah (sometimes spelled "Qabala"), illustrates how God the Creator, expresses his creative energy throughout the universe, through angels and on to human beings.

Each of the tree's branches (called "sephirot") symbolize a particular type of creative force that a different Archangel oversees. By focusing on the different energies one by one, people can develop a closer spiritual union with God, believers say.

### ***The Crown***

Kether (the Crown) features Archangel Metatron. As the angel of life, Metatron is at the top of the tree, directing God's living energy throughout the universe God has created. Metatron connects human beings living on earth with the divine energy of God and helps people incorporate that sacred energy into their lives. Metatron also brings spiritual balance to all of the different yet interconnected parts of God's creation and helps people achieve spiritual enlightenment.

### ***Wisdom***

Chokmah (wisdom) features Archangel Raziel. As the angel of mysteries, Raziel reveals divine mysteries to people that help them become wiser. By showing people how to incorporate their knowledge into their lives in practical ways, through Raziel's guidance. Raziel helps people reach their full potential, according to God's good purposes for their lives.

### ***Understanding***

Binah (understanding) features Archangel Tzaphkiel. As the angel of compassionate understanding, Tzaphkiel leads the angels who send the spiritual energy of understanding to people. Tzaphkiel helps people learn more about God, sends them insights about themselves as God's beloved children and guides them to make decisions in their daily lives that reflect that core identity.

### ***Mercy***

Chesed (mercy) features Archangel Zadkiel. As the angel of mercy, Zadkiel and the angels he supervises send the energy of God's mercy throughout the universe. That involves inspiring people to be kind to others because God is kind to them. It also includes giving people peace when they pray so they can be confident that God will answer their prayers according to what's truly best.

### ***Strength***

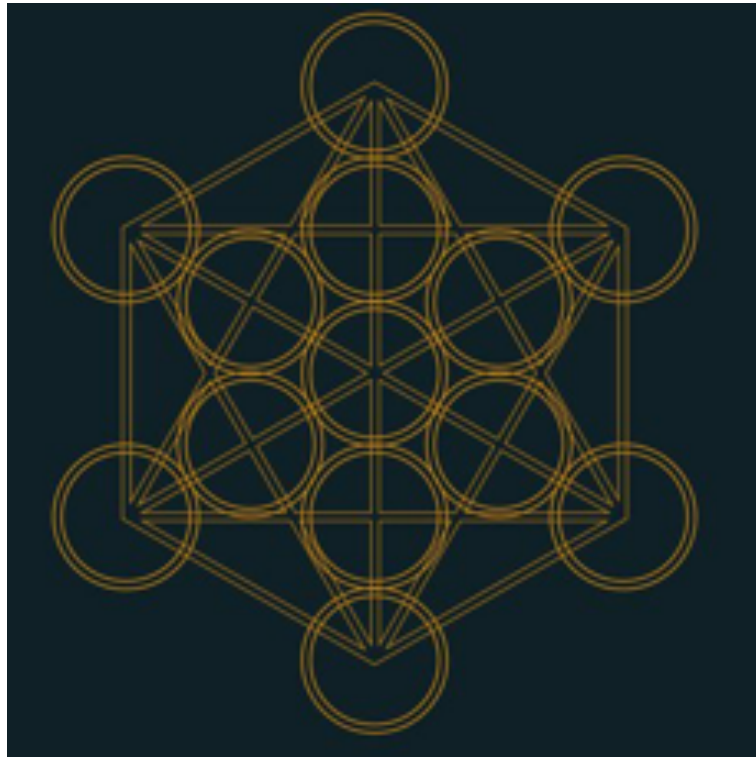

Geburah (strength) features Archangel Chamuel. As the angel of peaceful relationships, Chamuel exercises tough love to strengthen relationships so that people can experience peace -- within themselves, with each other and with God. Chamuel and the angels he oversees test people's beliefs and motivations. In the process, they purify them to help people develop stronger relationships with God.

# Archangel Metatron's Cube in Sacred Geometry

## The Geometry & Patterns of Creation

<https://www.learnreligions.com/archangel-metatrons-cube-in-sacred-geometry-124293>

by [Whitney Hople](#)

In sacred geometry, Archangel Metatron, the angel of life oversees the flow of energy in a mystical cube known as Metatron's Cube, which contains all of the geometric shapes in God's creation and represents the patterns that make up everything God has made.

These duties tie in with Metatron's work overseeing the Tree of Life in Kabbalah, where Metatron sends creative energy down from the top (the crown) of the tree toward all the parts of creation. Here's how you can use Metatron's Cube for inspiration and transformation.

### Metatron's Cube and All the Shapes in Creation

Metatron's cube contains every shape that exists in the universe God has created and those shapes are the building blocks of all physical matter. They are known as Platonic solids because the philosopher Plato linked them to the spirit world of heaven and the physical elements on Earth. Those three-dimensional shapes appear throughout creation, in all everything from crystals to human DNA.

In her book "Metatron: Invoking the Angel of God's Presence," Rose VanDen Eynden writes that studying sacred geometry "leads one to an understanding of how Creator has structured the physical world around us. Within this plane, certain patterns emerge that point to its unity and connection to a Divine Mind that created it. Timeless geometric codes underlie seemingly disparate things, showing the parallels between patterns in snowflakes, shells, flowers, the corneas of our eyes, the DNA molecule that is the building block of human life and the galaxy itself in which Earth resides."

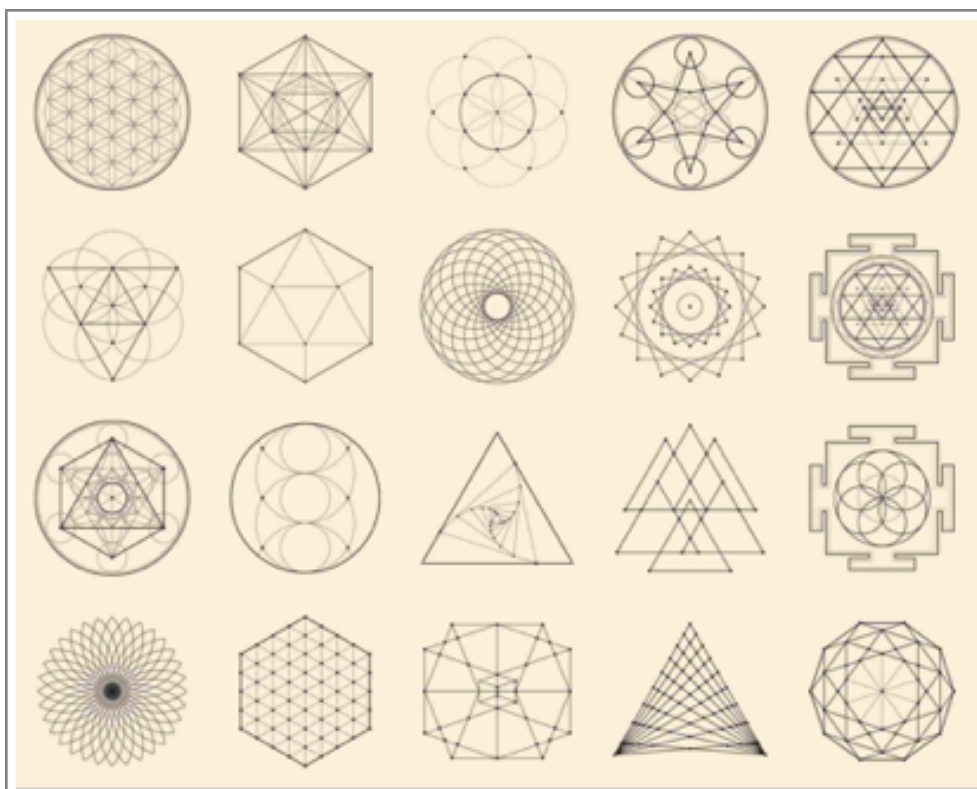

In his book "Beautiful Schools," Ralph Shepherd sees the cube as a symbol of how God made shapes fit together throughout creation and how he designed people's bodies and souls to fit together. "The cube represents the three-dimensionality of space. Within the cube lies the sphere. The cube represents the body with our third-dimensional reality, of manifested thought. The sphere within represents the consciousness of spirit within us, or, as is commonly known, our soul."

## Balancing Energy

The cube is an image of God's energy flowing through Metatron to all the many parts of creation and Metatron works hard to ensure that the energy flows in the proper balance so that all aspects of nature will be in harmony, believers say.

"Metatron's Cube helps us realize the harmony and balance of nature," writes VanDen Eynden in "Metatron." "Since it depicts an equilibrium in the six directions represented within it. Metatron's Cube can be used as a visual focal point to connect with the archangel, or it can be used as a concentration tool for meditations that promote peace and balance. Place an image of the cube anywhere you wish to be reminded of the archangel's loving, balancing presence."

## A Tool for Inspiration and Transformation in Sacred Geometry

People can derive inspiration from Metatron's cube in sacred geometry and also use it for personal transformation, say believers.

*"Ancient scholars believed that by studying sacred geometry and meditating on its patterns, inner knowledge of the Divine and our human spiritual progression can ... be gained,"* VanDen Eynden writes in "Metatron."

In her book "Archangels 101: How to Connect Closely With Archangels Michael, Raphael, Gabriel, Uriel and Others for Healing, Protection and Guidance," Doreen Virtue writes that Metatron uses his cube *"for healing and clearing away lower energies. The cube spins clockwise and uses centrifugal force to push away unwanted energy residue. You can call upon Metatron and his healing cube to clear you."*

Virtue later writes: *"Archangel Metatron has insights into the malleability of the physical universe, which is actually composed of atoms and thought energy. He can help you work with universal energies for healing, understanding, teaching and even bending time."*

Stephen Linsteadt writes in his book, "Scalar Heart Connection" that, *"Metatron's cube is a symbol and a tool for personal transformation. ... to listen deeply with the ear within the chamber of our heart so we can connect to the Infinite. ... Metatron's cube contains many geometric symbols for the unity of the finite with the infinite."*

# Metatron's Prison

A survivor has an amazing gift by drawing what God shows her in the spirit. She has been shown many prisons where parts of survivors are being held as prisoners.

To prove that Metatron is very evil, you can see the prison that he has created for survivor parts to be locked up in. Note that he works with dragons.

## Description

Parts are in little "balls" rotating around itself. All together they make a huge metatron-cube (it's like many little metatron cubes making together a huge one) around the huge metatron cube are two giant snakes.

Under the metatron cube an ice-water-dragon, above a **fire-air dragon**, both holding planets / stars / moons with their tongue.

Several signs flying around, Morning Star with fire around, another metatron cube just with dragon-queens outside the huge metatron cube.

# Prayer of Renunciation

Heavenly Father, I approach your throne with boldness, believing that the blood of Yeshua has rent the veil. Thank You for creating all that has been created through Your Spirit of Wisdom and Yeshua, Who is the Living Word. I praise Your Name and declare that You alone are the almighty GOD, that You are magnificent and that You alone rule supremely over all that has been created. I acknowledge that only through the Blood of Yeshua can our sins, transgressions and our bloodline iniquities be forgiven and can we be brought back into right standing with You, our Heavenly Father. Thank you for Your everlasting love for us and for your mercy that triumphs over judgement. Your Word says that You do not take pleasure in sinners falling away and that it is Your Heart that we would all humbly confess and repent and change our ways so that our lives will conform to Your Godly requirement on us.

Therefore we invite the Holy Spirit to help us and to convict us of sin, righteousness and judgement, to give us power to repent, insight to understand what we need to repent off and grace to see it through to the glory of our Father Who is in Heaven.

I approach Your throne humbly and as a representative of myself (and my parts / my bloodline) and acknowledge that we have allowed ourselves to be deceived by false doctrine, by doctrines of demons and the cabalistic synagogue of Satan, as well as having been led astray by our own fallen, unsubmitted desires of our hearts and our own untempered fantasies and illusions in our minds in that we opened the door to the fallen archangel, Metatron.

Forgive us for agreeing with the lie that the man called Enoch has transcended and has become the fallen archangel Metatron. Forgive us for looking to fallen angels for power and instruction and for submitting to Metatron's authority and power, for using the fallen cube of Metatron to travel through realms and for befriending Metatron, who stands in direct opposition to the cross of Yeshua. We turn away completely from Metatron and rededicate ourselves to Yeshua in spirit, soul and body. Forgive us for using the power of Metatron to exercise mind control over others and for traveling through timelines and realms to execute assignments and explorations for the enemy. We are deeply remorseful for this and we lay it all down at your feet, Yeshua. Please wash us with the blood of the pure and spotless Lamb of GOD, that You are.

Forgive us for falsely acknowledging Metatron as the highest archangel who sits over the Kabbalah tree, over Kether (crown), we break agreement with this fallen sacred geometry and with its alchemical roots and ask that You please extract us carefully from every point on the Kabbalah tree as we break all agreements and covenants and trades with Metatron. We give back everything that we received from Metatron and we ask that all that was lost to Metatron be cleansed and brought back to us. Please disable all the weapons and programs that have been set up to trigger as we repent and freeze them in the spirit realm so that we can deal with them orderly and sequentially.

We also repent for aligning and agreeing as well as practicing alchemy as a form of sorcery and we repent for the stubbornness of heart and mind as well as the lust for power and control that we were holding onto in our own lives as well as the generations that we come from.

Forgive us for accessing the fallen archangel, Metatron and for both foolishly as well as in an occultically informed manner, enquiring from him and for placing the fullness of our own created constellation, i.e. our spirit, soul and body, under his false rulership so that he could rule over and through us, because of the fallen cravings of our own luciferian hearts that we have not previously brought to You in repentance. We acknowledge that we have allowed Metatron to blind us and that he keeps many of us blinded to that the light of the glory of the Gospel of Yeshua cannot enter into our minds. Therefore, we break all allegiance with this fallen deceiver and we pray for mercy and forgiveness to You, Father GOD, running to You alone for safety and Truth and all that we need and acknowledging only the Father, the Son and the Holy Spirit as our True GOD.

Please have mercy on us and forgive us for all that we have done with and under and for Metatron. We fully and irrevocably repent and return to You, Father, with all of our heart. Please forgive us and save us and restore us back into the image and likeness of Yeshua HaMashiach. We lay down all our occult knowledge and skills and powers and hand in all our travel documents and specific frequencies that we were taught by Metatron and those who fall under him that would enable us to open various levels and dimensions of portals. We ask that only You will determine where and when and how we travel. We hand in all our cubes and occultic vehicles and ask that You cleanse us with Your Living Water as we break all our agreements, contracts, oaths, covenants and trades as well as repent for all the generational dedications that we and those before us made with and to Metatron. Forgive us for all the backlash clauses that we consented to and hide us under the shadow of Your wing. Please start to restore our corrupted frequencies, due to our involvement with Metatron and place us under the shelter of Your Wing. Please realign us under Your Lordship alone, Yeshua HaMashiach.

By faith, we believe that when we repent of our sins, You forgive us and therefore we choose to humble ourselves and rejoice and accept Your forgiveness and to forgive ourselves. We bind our foreheads to Your forehead and submit our will to Your Will for us. Please place us under the instruction of the Holy Spirit and continue the process of systematically untethering us from the false teachings of Metatron and imprint Your Truth on our hearts.

We pray this in Yeshua's Name, the **Only Name** above All Names.

**Amen**
